

便携充气泵

wireless portable air pump

JN-058

产品说明书

Product Manual

①

感谢您订购智能便携充气泵、让充气变得更简单方便本产品使用于汽车、摩托车、自行车、电动车及球类、小型充气玩具等充气也可当做胎压计和手电筒使用

Thank you for ordering wireless intelligent portable air pump, making inflating easier and more convenient. This product can be used for inflating cars, motorcycles, bicycles, electric cars and balls, small inflatable toys, etc., and can also be used as tire pressure meter and flashlight.

- A. 预设胎压，充满即停，自动操作
- B. 2023升级款充气核心
- C. 夜间工作灯，保障夜间充气安全
- D. 车载电源、电池低时车载仍可使用

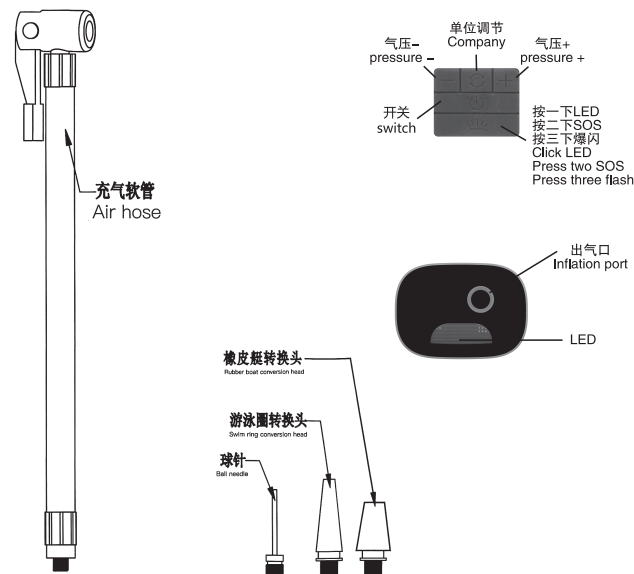

使用前请认真阅读使用说明，并严格遵守所有说明。另外，请妥善保管本手册以备将来参考。

- A. Preset tire pressure, full stop, automatic operation
 - B. Inflatable core for 2023 upgrade
 - C. Working light at night, ensuring the safety of charging at night
 - D. The vehicle can still be used when the vehicle power supply and battery are low
- Please read the instructions carefully before use and follow then strictly.

In addition, please keep this manual for future reference.

③

技术参数 Technical Parameters

产品型号: JN-058
产品名称: 多功能智能数显电动充气泵
充电输入电压: 9-13V
工作电压: 7.4-11.1V
最大消耗功率: 60W
最大电流: <6A 最大充气流量: 45L/min
LED光照流明值: 20LM
最大充气压力: 150PSI
测量精度: ±1.5PSI
压力单位: PSI、BAR、KPA、KG/CM²
外气管长度: 100MM±10MM
工作温度: -20℃~60℃
产品尺寸: 170*75*55mm

Mode No.: JN-058
Description: Multifunctional Intelligent Digital Display Electric Inflator
Input Voltage: 9-13V
Working Voltage: 7.4-11.1V
Max power: 60W
Max current: <6A
Output Volume: 45L/min
LED Total Lumen: 20LM
Max inflating pressure: 150PSI
Measurement accuracy: ±1.5PSI
Pressure unit: PSI、BAR、KPA、KG/CM²
Air hose long: 100MM±10MM
Working temperature: -20℃~60℃
Product size: 170*75*55mm

④

使用说明

将气管一端与气泵连接在一起，另一端旋入轮胎气门芯上，对于法式气门芯，则要加接转换接嘴。
液晶显示的智能控制型气泵，需先按“ ”键激活电源和液晶屏设定气压，60秒自动关机。

循环按“C”键，可在PSI、BAR、KPA、KG/CM²。 “+”与“-”为压力预设键，点按为慢调，长按为快调，设定到合适的压力值，闪烁5秒。自动设定完成 再按气泵电源开关“山”开始充气。

充气达到设定值，智能控制型气泵会自动停止充气。 SOS紧急救援和LED按“SOS”开关。

充气完毕，注意气管的温度冷却后将气管一端先从气门芯上迅速旋出，另一端从主机上旋出。

气泵的充电时间为3-5小时。

气压单位	初始状态	预设状态
Pressure unites	Lock-out state	Set state

锂电池充电:

将USB充电器插入USB端然后连接到气泵上的USB充电器端口当气泵上“电池”闪烁时，电池正在充电。需要3-5小时到完全充电状态。

⑥

Instructions

One end of the trachea is connected with the air pump, and the other end is screwed into the valve core of the tire. For French valve cores, they should be connected charging nozzle.

The liquid crystal display intelligent control air pump needs to press the "0" key to activate the power supply and the LCD screen to set the air pressure inflate by charging switch.

Cycle "C" key, can be in PSI. BAR. KPA. KG/CM² between the pressure unit conversion, the screen displays the actual air pressure.

"+" and "-" are the preset keys of pressure, the point is slow, the long press is fast and the appropriate pressure value is set, lashing for 5 seconds, automatically set and the press "0" air pump start switch to start inflating.

When the inflation reaches the set value, the intelligent control air pump will automatically stop the inflation.

SOS emergency rescue and LED press the "SOS" switch. After inflation, one end of the trachea is rapidly rotating out of the valve core and the other end is turned out from the main engine.

The charging time of the air pump is about 3-5 hours. Battery charging:

Insert the USB charger into the us8 port and connect it to the usB charger port on the air pump.

When "m" flashes on the air pump, the battery is being charged.

it takes 3-5 hours to fully charge.

⑦

注意事项 Attention

· 禁止儿童使用本气泵!放置在儿童接触不到的安全地方!千万不要把气管插入人或动物的嘴巴，耳朵或眼睛里充气，不要把气泵当做玩具!

· 禁止在靠近易燃易爆液体和气体的场合(如:加油站)使用本气泵 · 充气进行时高压气体会产生热量，为确保气泵良好工作，每次使用5分钟后，必须让本机停止运行15分钟，使机器冷却后再使用，以延长寿命。

· 如在充气时由异响或温度过高时，请立即关机，并使其冷却至少15分钟，拆卸气管时小心烫手。

· 产品防雨淋水慢，防摔打撞击。

· 如果长期不使用本气泵，则必须保存在干燥的地方。若长时间储存，建议每半年充一次电。

· 气泵使用前请检查是否已充满电。充电必须用产品附属专用充电器。

Forbid children to use this pump. Put the pump in the safe place where they can't touch it. Don't insert the hose to the mouth, ears and eyes, don't be regard it as a toy. Forbid using the pump where close to flammable and combustible, such as gas station.

Operation generate heat, when pump use uninterruptedly 5minutes, please let the pump stop at least 15minutes. if operation generate abnormal sound or temperature too high, please stop it it at leas15 minutes. Caution Hot when you tidy the hose.. Don't put the pump where there is water or rainy, don't strike it.

if you don't use the pump for a long time, please store it in where is dry. Suggest charge it once half year.

Check the pump if charging is enough before you use it.

⑧

敬告用户 Attention The Users

为了您和他人的安全，请按照厂家提供的说明书使用气泵及其配件。说明书中未提及的使用方法可能会造成危险。

To you and others, please follow the instructions provided by the manufacturer using pump and accessories The method of use not mentioned in the instructions may cause danger

执行标准: GB 4706.1-2005

警告 Warning

- 雷雨天气请断开外接充电器，以免遭雷击破坏。
- 远离热源，保持通风，
- 禁止将设备放在高温下或丢入火中，以免引起爆炸。
- 在储存、运输和运行环境中，请注意防水。

- Please disconnect the charger to avoid lightning damage in thunderstorm.
- Keep away from heat. Keep ventilation.
- Forbidden equipment at high temperatures or into fire, lest cause explosion.
- Please pay attention to waterproof in storage, transportation and operation.
